

**NEW RECIPIENT  
CME ASSOCIATION (CMEA) COMMENDATION**

CMEA Commendation is awarded to recognize outstanding contributions by individual.

*From left to right, Colonel Commandant, BGen Steve Irwin (Ret'd), MWO Craig Tucker and the CAF Chief Military Engineer, MGen Karl McQuillan – 11 February 2016, Gagetown*

**MASTER WARRANT OFFICER CRAIG TUCKER, CD**

The Canadian Military Engineers Association recognizes the extraordinary commitment and leadership of Craig Tucker during his tenure as President of the Gagetown Chapter of the CMEA.

He has been an inspiration to hundreds of Engineers as they passed through CFSME on course. In planting the seeds of membership in all of these Engineers he also planted the seeds for the creation of new CMEA Chapters as his new recruits returned to their units or were posted to new areas.

His undying efforts to recruit new members resulted in over 150% growth in the Association, in a very large part due to his efforts and excellence in service to the CMEA and the larger Engineer Family.

Having served the Association as a member for over a decade, his passionate support to the Engineer in Need program in both the Gagetown Chapter and nationally directly inspired new members to realize the benefit of membership and the role of the CMEA in the long term benefit of all Engineers, whether members or not.

The Canadian Military Engineers Association commends Craig Tucker for his exceptional dedication and continuing support to the CMEA aims and ambitions.
