

## Thank you from the CMEA

On 20 February 2014, the Senior Manager for TD Insurance Meloche Monnex Business Development presented a cheque for \$6,000 to the CMEA in recognition of the successful affinity program that the Association has developed with TD. Thank you to all CMEA members who have called in to TD to request a quote for home or auto insurance. Because of your interest we now have \$6,000 that will be used to support all in the wider Engineer family. As a volunteer organization, 100% of that money will go to furthering our aims and objectives.

This program with TD not only helps us answer the question, “What’s in it for me to join the Association?” by saving hundreds of dollars on insurance, but also allows us to show to members and non-members alike that joining the Association provides benefit writ large to all Engineers as the full amount of the \$6,000 goes directly to supporting our objectives. We are the Voice of the Engineers, we honour our heritage and traditions, and are here to assist Engineers and their families in time of need.

In the photo are, left to right, the Colonel Commandant BGen Des DesLauriers, CMEA President John Lesperance, Mr. Ted House from TD, CMEA Executive Director Dave Carney, and Acting Branch Advisor LCol Mark Gasparotto.
