

## Annex A to: Seeking Military Records for Former Canadian Military Engineer Personnel?

### Sapper Extract of Heritage Canadiana War Diaries Spreadsheet (June 2020 edition)

The Library and Archives Canada (LAC) guide at this location [ <http://www.bac-lac.gc.ca/eng/discover/military-heritage/Pages/war-diaries-ship-logs-operations-records.aspx#> ] outlines a two-step process to access the on-line digitized WW II war diaries. Following is a simplified method to access these War Diaries thanks to David Ryan [ <http://ww2talk.com/index.php?resources/> ].

The following table lists the Royal Canadian Engineer unit and headquarters war diaries available from the Library and Archives Canada (LAC) source documents. This table identifies the LAC Microfilm Reel Number (starts with "T") and includes notes as to the time period covered by each reel and delineates the periods where the unit served in Canada (**highlighted in RED**). To access the digital file all that is required is to copy the associated Microfilm Reel Number and paste it into the **Search Heritage Canadiana War Diaries** feature at: [http://heritage.canadiana.ca/view/oocihm.lac\\_mikan\\_133700](http://heritage.canadiana.ca/view/oocihm.lac_mikan_133700) .

A number of the units were reorganized and renamed during the war. Where this occurred, the changes are captured on the line with the Unit Name. The unit is generally listed under the unit name that it held last and will be listed in that group. If not found, use the SEARCH tool. If you are unable to locate an RCE Unit War Diary, contact the CME Historian at: [history.heritage@cmea-agmc.ca](mailto:history.heritage@cmea-agmc.ca)
